NAME

FcLangSetContains - check langset subset relation

SYNOPSIS

#include <fontconfig/fontconfig.h>

FcBool FcLangSetContains (const FcLangSet **ls_a***, const FcLangSet ****ls_b***);**

DESCRIPTION

FcLangSetContains returns FcTrue if *ls_a* contains every language in *ls_b*. *ls_a* will 'contain' a language from *ls_b* if *ls_a* has exactly the language, or either the language or *ls_a* has no territory.
