

**NAME**

FcPatternIterGetObject - Returns an object name which the iterator point to

**SYNOPSIS**

```
#include <fontconfig/fontconfig.h>
```

```
const char * FcPatternIterGetObject (const FcPattern *p, FcPatternIter *iter);
```

**DESCRIPTION**

Returns an object name in *p* which *iter* point to. returns NULL if *iter* isn't valid.

**SINCE**

version 2.13.1
