

NAME

FcStrStr - locate UTF-8 substring

SYNOPSIS

```
#include <fontconfig/fontconfig.h>
```

```
FcChar8 * FcStrStr (const FcChar8 *s1, const FcChar8 *s2);
```

DESCRIPTION

Returns the location of *s2* in *s1*. Returns NULL if *s2* is not present in *s1*. This test will operate properly with UTF8 encoded strings.
