NAME

SSL_get_SSL_CTX - get the SSL_CTX from which an SSL is created

SYNOPSIS

#include <openssl/ssl.h>

SSL_CTX *SSL_get_SSL_CTX(const SSL *ssl);

DESCRIPTION

SSL_get_SSL_CTX() returns a pointer to the SSL_CTX object, from which **ssl** was created with **SSL_new**(3).

RETURN VALUES

The pointer to the SSL_CTX object is returned.

SEE ALSO

ssl(7), **SSL_new**(3)
