

## NAME

**archive\_write\_header** - functions for creating archives

## LIBRARY

Streaming Archive Library (libarchive, -larchive)

## SYNOPSIS

```
#include <archive.h>
```

*int*

```
archive_write_header(struct archive *, struct archive_entry *);
```

## DESCRIPTION

Build and write a header using the data in the provided struct archive\_entry structure. See archive\_entry(3) for information on creating and populating struct archive\_entry objects.

## RETURN VALUES

This function returns **ARCHIVE\_OK** on success, or one of the following on error: **ARCHIVE\_RETRY** for operations that might succeed if retried, **ARCHIVE\_WARN** for unusual conditions that do not prevent further operations, and **ARCHIVE\_FATAL** for serious errors that make remaining operations impossible.

## ERRORS

Detailed error codes and textual descriptions are available from the **archive\_errno()** and **archive\_error\_string()** functions.
