

NAME

auth_checknologin, **auth_cat** - authentication style support library for login class capabilities database

LIBRARY

System Utilities Library (libutil, -lutil)

SYNOPSIS

```
#include <sys/types.h>
#include <login_cap.h>
```

```
void
auth_checknologin(login_cap_t *lc);
```

```
int
auth_cat(const char *file);
```

DESCRIPTION

This set of functions support the login class authorisation style interface provided by login.conf(5).

SEE ALSO

getcap(3), login_cap(3), login_class(3), login.conf(5), termcap(5)

HISTORY

The functions **auth_checknologin()** and **auth_cat()** first appeared in FreeBSD 2.1.5.
