

**NAME**

cmpbytes() - compare data

**SYNOPSIS**

```
ssize_t cmpbytes(from, to, cnt)
    const void *from;
    const void *to;
    ssize_t cnt;
```

**DESCRIPTION**

cmpbytes() compares size bytes from from to to.

**RETURN VALUE**

**cnt** Both memory chunks are equal

**0..cnt-1** The offset of the first differing character in the chunks.

**ERRORS**

No errors are defined

**SEE ALSO**

**cmpmbytes(3), cmpnullbytes(3), fillbytes(3), findbytes(3), movebytes(3), movecbytes(3), swapbytes(3), zerobytes(3)**

**NOTES**

This routine correctly handles overlapping buffers.
