NAME

　　　dconf-editor - Graphical editor for gsettings and dconf

SYNOPSIS

　　　dconf-editor [OPTIONS...]

　　　dconf-editor [OPTIONS...] [PATH]

　　　dconf-editor [OPTIONS...] [FIXED_SCHEMA | RELOCATABLE_SCHEMA:PATH] [KEY]

DESCRIPTION

　　　The **dconf-editor** program provides a graphical interface for editing settings that are stored by other
　　　applications using the *gsettings* functions of the *glib* library, or in the *dconf* database. The **gsettings**(1)
　　　and **dconf**(1) utilities provides similar functionality on the commandline.

OPTIONS

　　　-h, **--help**

　　　　　Prints the command-line options and exits.

　　　-v, **--version**

　　　　　Prints the release version and exits.

　　　--list-relocatable-schemas

　　　　　Prints the list of relocatable schemas and exits.

　　　--I-understand-that-changing-options-can-break-applications

　　　　　Launches application without showing initial warning.
