

NAME

device_get_sysctl_ctx, **device_get_sysctl_tree** - manipulate the sysctl oid tree for driver specific sysctl nodes

SYNOPSIS

```
#include <sys/param.h>
```

```
#include <sys/bus.h>
```

```
struct sysctl_ctx_list *
```

```
device_get_sysctl_ctx(device_t dev);
```

```
struct sysctl_oid *
```

```
device_get_sysctl_tree(device_t dev);
```

DESCRIPTION

The newbus system automatically adds a sysctl node for each device in the system. This node can be accessed with the **device_get_sysctl_tree()** function. The context for the node can be obtained with the **device_get_sysctl_ctx()** function.
