

NAME

gnutls_session_get_random - API function

SYNOPSIS

```
#include <gnutls/gnutls.h>
```

```
void gnutls_session_get_random(gnutls_session_t session, gnutls_datum_t * client, gnutls_datum_t * server);
```

ARGUMENTS

gnutls_session_t session
is a **gnutls_session_t** type.

gnutls_datum_t * client
the client part of the random

gnutls_datum_t * server
the server part of the random

DESCRIPTION

This function returns pointers to the client and server random fields used in the TLS handshake. The pointers are not to be modified or deallocated.

If a client random value has not yet been established, the output will be garbage.

SINCE

3.0
