

NAME

libssh2_session_free - frees resources associated with a session instance

SYNOPSIS

```
#include <libssh2.h>
```

```
int
```

```
libssh2_session_free(LIBSSH2_SESSION *session);
```

DESCRIPTION

Frees all resources associated with a session instance. Typically called after **libssh2_session_disconnect_ex(3)**

RETURN VALUE

Return 0 on success or negative on failure. It returns LIBSSH2_ERROR_EAGAIN when it would otherwise block. While LIBSSH2_ERROR_EAGAIN is a negative number, it is not really a failure per se.

SEE ALSO

libssh2_session_init_ex(3) **libssh2_session_disconnect_ex(3)**
