

**Name**

mysql\_server\_end - Called when finished using MariaDB Connector/C

**Synopsis**

```
#include <mysql.h>
```

```
void mysql_server_end(void)
```

**Description**

Call when finished using the library, such as after disconnecting from the server. For a client program, only cleans up by performing memory management tasks.

**Notes**

- ⊕ mysql\_library\_end() is an alias for mysql\_server\_end().
- ⊕ In MySQL Connector/C versions 3.0.1 to 3.0.4 it was not possible to call multiple times **mysql\_server\_init(3)** and mysql\_server\_end().
