

NAME

`pcap_dump_file` - get the standard I/O stream for a savefile being written

SYNOPSIS

```
#include <pcap/pcap.h>
```

```
FILE *pcap_dump_file(pcap_dumper_t *p);
```

DESCRIPTION

`pcap_dump_file()` returns the standard I/O stream of the ‘‘savefile’’ opened by `pcap_dump_open(3)`.

SEE ALSO

`pcap(3)`
