

NAME

snmp_lm75 - LM75 Sensor module for bsnmpd(1)

LIBRARY

(begemotSnmpdModulePath."lm75" = /usr/lib/snmp_lm75.so)

DESCRIPTION

The **snmp_lm75** module implements a private BEGEMOT-LM75-MIB, which allows reading the temperature of the LM75 sensors on the system.

The module reads the sensor(s) temperature using the sysctl(8) API.

FILES

/usr/share/snmp/defs/lm75_tree.def

The description of the MIB tree implemented by **snmp_lm75**.

/usr/share/snmp/mibs/BEGEMOT-LM75-MIB.txt

The private BEGEMOT-LM75-MIB that is implemented by this module.
