

**NAME****tan, tanf, tanl** - tangent functions**LIBRARY**

Math Library (libm, -lm)

**SYNOPSIS**

#include &lt;math.h&gt;

*double***tan**(*double x*);*float***tanf**(*float x*);*long double***tanl**(*long double x*);**DESCRIPTION**

The **tan()**, **tanf()**, and **tanl()** functions compute the tangent of *x* (measured in radians). A large magnitude argument may yield a result with little or no significance. For a discussion of error due to roundoff, see *math(3)*.

**RETURN VALUES**

The **tan()**, **tanf()**, and **tanl()** functions return the tangent value.

**SEE ALSO**

acos(3), asin(3), atan(3), atan2(3), cos(3), cosh(3), ctan(3), math(3), sin(3), sinh(3), tanh(3)

**STANDARDS**

These functions conform to ISO/IEC 9899:1999 ("ISO C99").
