

NAME

true - return true value

SYNOPSIS

true

DESCRIPTION

The **true** utility always returns with an exit code of zero.

Some shells may provide a builtin **true** command which is identical to this utility. Consult the builtin(1) manual page.

SEE ALSO

builtin(1), csh(1), false(1), sh(1)

STANDARDS

The **true** utility is expected to be IEEE Std 1003.2 ("POSIX.2") compatible.
