

**NAME**

**vrefcnt** - returns the use count of a vnode

**SYNOPSIS**

```
#include <sys/param.h>
```

```
#include <sys/vnode.h>
```

*int*

```
vrefcnt(struct vnode *vp);
```

**DESCRIPTION**

Returns the use count of a vnode.

See [vnode\(9\)](#) for a detailed description of the vnode reference counts.
