NAME
   xo_flush, **xo_flush_h** - flush formatted output from libxo handle

LIBRARY
   Text, XML, JSON, and HTML Output Emission Library (libxo, -lxo)

SYNOPSIS
   #include <libxo/xo.h>

   xo_ssize_t
   xo_flush(*void*);

   xo_ssize_t
   xo_flush_h(*xo_handle_t *handle*);

DESCRIPTION
   libxo buffers data, both for performance and consistency, but also to allow some advanced features to
   work properly. At various times, the caller may wish to flush any data buffered within the library. The
   xo_flush() function is used for this.

SEE ALSO
   xo_emit(3), libxo(3)

HISTORY
   The **libxo** library first appeared in FreeBSD 11.0.

AUTHORS
   libxo was written by Phil Shafer *<phil@freebsd.org>*.
